

DYSART TRASH TALK

Let's Talk... **REUSE**

We are committed to diverting waste and hazards from our landfills and our goal is to make it as easy as possible for you to Reduce, Reuse and Recycle! The 3R's are at the heart of the 'Go Green' global movement!

Reuse:

The importance of reusing products cannot be emphasized enough! The ways in which to reuse things are unlimited...

- Donate items that you no longer use; whether it be to a neighbour, friend, family member, local school, church, or charity for those in need. Label a box "donations" and periodically deliver to organizations that might be able to use the gently used items you've collected.
- Many "free-cycle" websites and social media pages are popping up, that make it easy to donate to other.
- Have a garage sale "One man's trash is another man's treasure".
- Reuse plastic bags or better get reusable canvas shopping bags.

Help protect our environment, save our precious landfill space, and preserve our natural resources by diverting materials and hazards from your landfills. It's easy and it's free!

Talk to one of our knowledgeable landfill attendants to find out how you can help reduce, reuse and recycle today!
