

**MUNICIPALITY OF DYSART ET AL  
APPLICATION FOR ZONING BY-LAW**

**INFORMATION SHEET**

**1. Completion of Application**

The attached application form is to be completed and submitted to the Dysart Planning and Land Information Department. In all cases, please ensure that you keep a copy for your files.

The application cannot be processed if insufficient or inaccurate information is provided. Complete the application and provide as much information as possible. The information that is prescribed by Ontario Regulation 545/06, as amended, must be provided by the applicant. Detailed information as to the reasons for requiring the proposed change of zoning, and particulars of any special circumstances which the applicant wishes to bring to the attention of Council in support of the application, should be stated. The applicant is advised to approach the Planning Department for Official Plan, Zoning and policy information before making a formal application.

**2. Authorization of Agent**

The application is to be completed by the property owner or his authorized agent. Where the application is being submitted by an agent, the written authorization of the owner is required. Section "D" of the application form is provided for this purpose.

**3. Application Fee and Planning Services Acknowledgement**

Each application shall be accompanied by a certified cheque, payable to the Municipality of Dysart, in the amount of \$1000.00, and shall be accompanied by one signed, witnessed and dated copy of the attached "Planning Services Acknowledgement".

**4. Plans Required**

Each application shall be accompanied by two (2) copies of a plan showing:

- (a) The boundaries and dimensions of the property.
- (b) The accurate location, size and type of all proposed and existing buildings and structures on the property.
- (c) The distance from side, rear and front lot lines of all existing or proposed buildings.
- (d) The location, width and names of all roads within or abutting the property, indicating whether they are public travelled roads, private roads or rights of way or unopened road allowances. The location and number of parking and loading spaces, ingress, egress and direction of traffic.
- (e) The location of all natural and artificial features on the property (*i.e. railways, wells, septic tanks, drainage ditches, watercourses, slopes, swamps, wooded areas*), the location of any of these features on adjacent lands which may affect the proposal, and any proposed changes to the land, such as grading, blasting, planting or channelization.
- (f) The use of adjoining lands (*i.e. residential, agricultural, commercial, etc.*).
- (g) The location and nature of any restrictive covenant or easement affecting the property.

**5. Additional Information**

Additional information, such as supporting background reports or a survey plan may be required to properly process the application, and will be requested if necessary.

**6. Declaration Required**

The contents of this application and any maps/appendices shall be validated by the applicant in the form of a statutory declaration before a Commissioner or other person empowered to take affidavits.

**7. Responsibility of Applicant**

The filing of this application is considered as an undertaking by the applicant to accept all conditions as herein set forth.

**8. Effective Date**

The effective date of this application shall be deemed to be that on which it is received with sufficient information.

**9. Submission**

12. If the application proposes development on a privately owned and operated individual or communal septic system, and more than 4500 litres of effluent would be produced per day, attach:

- (a) a servicing option report: \_\_\_\_\_
- (b) a hydrogeological report: \_\_\_\_\_

13. Provincial Policy:

Table 1 below lists the features or development circumstances of interest to the County and Provincial agencies. Complete Table 1 and note the potential Information requirements of each section. Attach a separate sheet explaining how the proposal is consistent with the Provincial Policy Statement.

**Table 1 Significant Features Checklist**

| Features or Development Circumstances  | (a) If a feature, is it on site or within 500 metres OR<br>(b) If a development circumstance, does it apply? |        | If a feature, specify distance in metres. | Potential Information Needs  |
|--|--|--------|---|--|
|  | YES (✓)  | NO (✓) |   |  |
| Non-farm development near designated urban areas or rural settlement areas                       |  |        |   | Demonstrate sufficient need within 20-year projections and that proposed development will not hinder efficient expansion or urban areas or rural settlement areas. |
| Class 1 industry <sup>1</sup>  |  |        | Metres                                    | Assess development for residential and other sensitive uses within 70 metres.  |
| Class 2 industry <sup>2</sup>  |  |        | Metres                                    | Assess development for residential and other sensitive uses within 300 metres.   |
| Class 3 industry <sup>3</sup>  |  |        | Metres                                    | Assess development for residential and other sensitive uses within 1000 metres.  |
| Landfill Site  |  |        | Metres                                    | Address possible leachate, odour, vermin and other impacts   |
| Sewage Treatment Plant   |  |        | Metres                                    | Assess the need for a feasibility study for residential and other sensitive land uses  |
| Waste Stabilization Pond   |  |        | Metres                                    | Assess the need for a feasibility study for residential and other sensitive land uses  |
| Active Railway Line  |  |        | Metres                                    | Evaluate impacts within 100 metres   |
| Controlled access highways or freeways including designated future ones                          |  |        | Metres                                    | Evaluate impacts within 100 metres   |
| Operating mine site  |  |        | Metres                                    | Will development hinder continuation or expansion of operations?   |
| Non-operating mine site within 1000 metres   |  |        | Metres                                    | Have potential impacts been addressed? Has mine been rehabilitated so there will be no adverse effects?  |
| Airports where noise exposure forecast (NEF) or noise exposure projection (NEP) is 28 or greater |  |        |   | Demonstrate feasibility of development above 28 NEF for sensitive land uses. Above the 35 NEF/NEP contour, development of sensitive land uses is not permitted.    |
| Electric transformer station   |  |        | Metres                                    | Determine possible impacts within 200 metres.  |
| High voltage electric transmission line  |  |        | Metres                                    | Consult the appropriate electric power service   |
| Transportation and infrastructure corridors  |  |        |   | Will the corridor be protected?  |
| Prime agricultural land  |  |        |   | Demonstrate need for use other than agricultural and indicate how impacts are to be mitigated.   |
| Agricultural operations  |  |        | Metres                                    | Development to comply with the Minimum Distance Separation Formulae  |
| Mineral aggregate resource areas   |  |        |   | Will development hinder access to the resource or the establishment of new resource operations?  |
| Mineral aggregate operations   |  |        | Metres                                    | Will development hinder continuation of extraction?  |
| Mineral and petroleum resource areas   |  |        |   | Will development hinder access to the resource or the establishment of new resource operations?  |
| Existing pits and quarries   |  |        | Metres                                    | Will development hinder continued operation or expansion?  |
| Significant wetlands   |  |        | Metres                                    | Demonstrate no negative impacts  |
| Significant portions of habitat of endangered and threatened species                             |  |        | Metres                                    | Demonstrate no negative impacts  |

| Features or Development Circumstances   | (a) If a feature, is it on site or within 500 metres OR<br>(b) If a development circumstance, does it apply? |        | If a feature, specify distance in metres. | Potential Information Needs  |
|---|--|--------|---|--|
|   | YES (✓)  | NO (✓) |   |  |
| Significant fish habitat, woodlands southeast of the Canadian Shield, valleylands, areas of natural and scientific interest (ANSI) and wildlife habitat |  |        | Metres                                    | Demonstrate no negative impacts  |
| Sensitive groundwater recharge areas, headwaters and aquifers   |  |        |   | Demonstrate that groundwater recharge areas, headwaters and aquifers will be protected   |
| Significant built heritage resources and cultural heritage landscapes   |  |        |   | Development should conserve significant built heritage resources and cultural heritage landscapes  |
| Significant archaeological resources  |  |        |   | Assess development proposed in areas of medium and high potential for significant archaeological resources. These sources are to be studied and preserved, or where appropriate, removed, catalogued and analyzed prior to development.  |
| Erosion Hazards   |  |        |   | Determine feasibility within the 1:100 year erosion limits of ravines, river valleys and streams.  |
| Floodplains   |  |        |   | Where one-zone flood plain management is in effect, development is not permitted within the Flood Plain.<br><br>Where two-zone flood plain management is in effect, development is not permitted within the floodway.<br><br>Where a special policy area (SPA) is in effect, development must meet the official plan policies for the SPA. |
| Hazardous sites and rehabilitated mine sites  |  |        | Metres                                    | For development on rehabilitated mine sites, an application for approval from the Ministry of Northern Development and Mines (MNDM) should be made concurrently.   |
| Contaminated sites  |  |        |   | Assess the inventory of previous uses in areas of possible soil contamination.   |

1. Class 1 Industry – small scale self-contained plant, no outside storage, low possibility of fugitive emissions and daytime operations only.
2. Class 2 Industry – medium scale processing and manufacturing with outdoor storage, periodic output of emissions, shift operations and daytime truck traffic.
3. Class 3 Industry – indicate if within 1000 metres - processing and manufacturing with frequent and intense off-site impacts and a high probability of fugitive emissions

(b) Regard to the Provincial Policy Statement

For each feature or development circumstance of potential concern identified in Table 1, identify how regard was had to the Provincial Policy Statement. Explain below or attach on a separate page.
