

JOINT ACCESSIBILITY PLAN: 2018-2022

2018 Accomplishments

Township of Algonquin Highlands

The Council of the County of Haliburton is committed and guided by the four core principles of Accessibility - Dignity, Independence, Integration and Equal Opportunity - and supports the full inclusion of persons with disabilities as set out in the *Ontario Human Rights Code* and the *Accessibility for Ontarians with Disabilities Act, 2005* and its Standards.

All persons deserve the right to perform the tasks of daily living within their communities while utilizing County and Municipal buildings, properties or events. The County of Haliburton and the Municipalities it includes created a Joint Accessibility Committee.

With the passing of the Integrated Accessibility Standards Regulation (IASR) under *the Accessibility for Ontarians with Disabilities Act (AODA)*, the County and its member municipalities have created a multi-year plan to assist in implementing policies, practices, procedures and training, and to identify and evaluate projects to remove barriers.
